Silvia –

We have long thought LPRs would be beneficial to enhance mall security. We would recommend the mall partner with Flock Safety, to add LPR cameras covering each exit of the mall parking lots, not the parking structures themselves. The data can be shared with SMPD to assist officers when investigating any crimes reported at the mall. We have other businesses in town that are also going with Flock to cover their properties, and thought this could be a cost effective solution for the mall as well.

Please let me know if you have any other questions.

I haven't had the opportunity to look at this. For clarification are you looking for us to install these in the parking structure?

Following up on our conversation today, I wanted to send you some information about Flock Safety License Plate Readers. I can't think of a more cost effective to protect the businesses and patrons of the mall. Each camera costs $2,500 per year. If you would like more information, or a demonstration of the system's capabilities, please reach out Flock's Community representative, Sara Stanzler (415.968.1294 sara.stanzler@flocksafety.com). I would also be happy to discuss any question you

might have.

Thank you,

Dan

Silvia –

Good afternoon, I hope all is well. As you are likely aware there was a murder at the mall parking structure this past weekend. I was hoping to engage with you on an idea to enhance mall security. If you could call me at your earliest convenience, that would be appreciated.

Thank you,

Dan
